Biohazard Cleaning

Crime Scene & Forensic Cleaning

Specialist cleaning of properties affected by crime scenes or forensic incidents, including the safe removal of biological contamination and thorough disinfection of affected areas.

Unattended or After-Death Cleaning

Compassionate and discreet cleaning following an unattended death, including the removal of biological contamination, odour treatment and specialist disinfection.

Trauma & Accident Cleanup

Professional cleaning following traumatic incidents or accidents involving blood, bodily fluids and other potentially infectious materials.

Hoarding & Extreme Cleaning

Sensitive and non-judgemental cleaning of heavily cluttered, neglected or unsanitary properties, including waste removal, deep cleaning and disinfection.

Sewage & Black Water Mitigation

Specialist cleaning and decontamination following sewage leaks, overflows or black water incidents, helping restore affected surfaces to a hygienic condition.

Sharps & Needle Sweeps

Careful inspection and removal of discarded needles, syringes and other sharp objects, using appropriate handling procedures and approved sharps disposal methods.

Infectious Disease & Virus Decontamination

Targeted cleaning and disinfection of potentially contaminated environments using appropriate products and procedures to help reduce the risk of infection transmission.

Animal Infestation & Waste Cleanup

Specialist removal of animal droppings, nesting debris and associated contamination, followed by thorough cleaning and disinfection of affected areas.
